**'Victims' Counsel submission of the CV of the proposed expert, pursuant to the
Trial Panel's Order of 22 April 2022'**

PUBLIC

The Hague, April 25 2022

CURRICULUM VITAE

dr. Stefan Lerz
Nederlands Rekencentrum Letselschade (NRL)
Postbus 341
2501 CH Den Haag

Born May 30, 1963 in Husum, Germany

Education

1991 Master in Economics – University of Göttingen, Germany
1996 Ph.D. in Economics – University of Groningen, The Netherlands

Work experience during the last fifteen years

2007-2022 Expert for calculation of capitalized income losses at NRL

NRL is a leading company in The Netherlands for the calculation of income losses due to injuries or the death of family members. NRL is independent and works mainly for courts, law firms and insurance companies. The important thing is that we are able to boil the income loss of a lifetime down to a single net amount of money.

My own specialization within NRL is the calculation of capitalized income losses in foreign countries. In earlier years, I have made calculations for people from Bosnia, Iraq, Indonesia, Austria and Germany.

All my calculations are, of course, based on evidence, like employment contracts or salary slips. However, experience shows the lack of such information as a common problem. Being an economist originally, I am in such cases also capable of alternatively using statistical sources, like national accounts.

Additional Skills

Since 2009 Member of the Dutch "Landelijk Register van Gerechtelijke Deskundigen" (LRGD) at the University of Leiden, The Netherlands which is a register for experts working in court. This membership requires education which has prepared me for this task.

Languages

Dutch, English, German
