Classification:	Public	
File Number:	KSC-BC-2020-07	
Subject:	Non-recorded Serbian language interpretation of courtroom proceedings	

During the hearing held on 17 March 2022 the microphone in the Serbian interpretation booth was not activated, as a result of which the interpretation into Serbian language was not available during the hearing and was not recorded from 10:28:20 to 10:34:36, for the duration of 6:16 minutes.

The missing segment of the Serbian interpretation (from the Serbian transcript starting at page 22, line 20) corresponds to the English transcript page 3769, line 1 to page 3772, line 25.

The Language Services Unit has listened to the original audio recording and re-recorded the missing segment of the Serbian interpretation for the purposes of ensuring a complete record of the proceedings. This re-recorded segment is provided to the Court Management Unit and will serve as the basis for the Serbian version of the transcript.
